

PENTA
ELECTRICAL SAFETY PRODUCTS

Our story

Since our first innovation in 1932, we have developed our expertise by bringing together companies specialized in the health and safety of those working on live and de-energized electrical networks.

Our growth has been built upon:

- Our understanding of national markets,
- Our knowledge of international standards,
- Anticipating the evolving needs in electrical energy.

Today, PENTA, our new brand, embodies our expertise, our ability to innovate, and our unified commitment to working closely with you.

Our teams are committed to supporting you from analysis to operational implementation. We mobilize all our resources (research and development, design, manufacturing, supply chain, training, commissioning, operational maintenance) to better serve you.

..... **15000** SKU's

..... **+ 90** years of innovation

..... **+50000** Customers on 5 continents

..... **550** employees and 18 subsidiaries.

..... **5%** of our revenue is reinvested in research and development (R&D).

..... **We are active members** of international and national standardization committees, including ASTM and IEC...

Protect / Secure / Work

We design and manufacture our products in dedicated factories. Our offering encompasses all aspects of your operations, both live and de-energized, for the construction, maintenance, and operation of electrical networks.

In a spirit of co-construction, we accompany you in a long-term partnership to build the best solution, leveraging all our resources and expertise gained across each field of activity worldwide.

Our offer

Your life, Our work.

WE ARE PENTA

As a multinational industrial leader, we are pioneers and expert manufacturers of electrical safety solutions. We are committed to ensuring your safety during every intervention and dedicated to safeguarding your life.

We are the essential partner for power line workers, maintenance technicians, and electricians who operate on electrical production, transmission, and distribution networks worldwide, as well as in 9 other fields of activity.

Our work starts where your life could be at risk.

Our brands

As a multinational company, we are present in numerous countries and have successfully adapted our products to meet the specific standards, certifications, and specifications of each region.

Explore our three product portfolios and range of services:

- / REGELTEX to Protect you,
- / FAMECA, OTTOTECNICA and P&B to secure your working environment,
- / ALROC to work safely.

Our fields of activities

- / Generation
- / Transmission
- / Distribution
- / Sub-Station
- / Cables & Accessories
- / Industries
- / Railroad
- / Electric Vehicle
- / Civile Defense

THE 5 GOLDEN RULES

1

PROTECT

We aim to protect you from the risks associated with working on electrical networks and safeguard your work environment.

We provide essential personal and collective protective equipment to ensure the health and safety of individuals, in compliance with current standards and specific requirements.

2

SECURE

We enable you to implement means for securing de-energized networks or tools for accessing and working on live networks (medium and high voltage).

We manufacture equipment specifically tailored to your networks to ensure a safe worksite for all personnel involved.

3

WORK

We are dedicated to enabling you to work safely on your construction sites.

We design and deliver high-performance tools that allow you to carry out your technical interventions efficiently and effectively.

4

SERVICES

Providing you with a local service.

We listen to your needs and provide you with our manufacturing-expertise: audit/advice, training, technical assistance, operational maintenance, customization or equipment hire, etc.

5

SOLUTIONS

Enabling you to be more efficient.

We design solutions (products and dedicated services) for your LV, MV and HV operations, whether live or dead. Our sustainable achievements have become a benchmark for professional users worldwide.

Our values

We believe in the power of teamwork.

/ COMMITMENT

The expertise of our teams alongside you to drive value creation.

/ TRUST

The integrity of relationships, loyalty as a lever for our effectiveness.

/ PERFORMANCE

Continuous and responsible innovation, serving sustainable transition and the protection of professionals.
